JAGUAR

THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our cars’ performance. We innovate, we engineer, we design. We master rules and then break them. Only to push further. Past the limits of convention. This is when performance becomes art. Jaguar. The Art of Performance.
INTRODUCTION

THE CONCEPT OF XE

XE is the foundation of the Jaguar saloon car family. A distillation of the design, luxury and technology found in XF and XJ. Inspired by our F-TYPE sports car, with its assertive looks and agile drive.

The XE range features an extended engine choice, including the 2.0 l 4-cylinder 184 kW Turbocharged Ingenium Petrol engine, delivering outstanding usable power and torque. There’s also the 2.0 l 4-cylinder 132 kW Turbocharged Ingenium Diesel engine, offering effortless performance. Or choose the dynamic 2.0 l 147 kW Turbocharged Ingenium Petrol engine with a 0-100 km/h time of 7.6 s.

XE is an exceptional blend of technology, design, and driving dynamics that rewrites all the rules.
EFFICIENCY AND PERFORMANCE
Find your perfect balance between dynamism and efficiency in XE’s range of engines. All deliver strong, high-torque performance.

XE - THE FACTS
XE brings together the latest Jaguar innovation, technology and design.

¹All in-car features should be used by drivers only when safe to do so. Drivers must ensure they are in full control of the vehicle at all times.
²Standard on XE Prestige and XE Portfolio, not available on XE Pure.

VEHICLE SHOWN: XE S IN FIRENZE RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
**ALWAYS CONNECTED**

Our most advanced infotainment system ever – Touch Pro – now features as standard on XE. Its next-generation hardware and software enhance every journey through added connectivity, convenience and entertainment. Some of the outstanding features it supports include Meridian™ Sound Systems and connected navigation. For safer and easier navigation at your fingertips, a 25.4 cm (10) Touchscreen is standard.

---

**ADDED INTELLIGENCE**

Innovative technologies make every drive easier and safer. XE offers Xenon headlights with LED signature.

---

**LIGHTWEIGHT ALUMINIUM ARCHITECTURE**

XE’s lightweight architecture creates an incredibly strong body – underpinning power with responsive handling, and refinement with beautiful design.
"It’s about paring it down to the bare essentials. Good designers have always said less is more.”
Ian Callum, Jaguar Design Director.

XE stands out from the competition with the clean surfaces and dynamic looks that form the core of Jaguar design. This is because XE’s Lightweight Aluminium Architecture gave its designers the freedom to work alongside engineers to optimise the car’s proportions – XE is unmistakably a Jaguar. The long, distinctly defined bonnet is aerodynamically sculpted to channel air over and around the body for greater efficiency. Along with the rising waistline and ‘cab rearward’ design, it ensures that XE shares the athleticism of the other cars in the Jaguar range. XE is crouching, ready to pounce.
One glance at XE and you know that it could only be a Jaguar. From the headlights featuring Jaguar signature ‘J’ blade Daytime Running Lights, the powerfully sculpted bonnet and the chrome side vents stamped with the Jaguar name, all the way to those distinctive rear haunches. Only Jaguar, as a world leader in aluminium car construction, has the technology and expertise to create sharper creases from deeper, more innovatively formed pressings. The body side curvature of XE is aerodynamically honed to sweep air seamlessly rearwards to the tail. The deliberately cropped rear has a short overhang, underscoring the car’s performance credentials and enhancing airflow. It culminates with those iconic tail lights that are inspired by the F-TYPE sports car.
Connect with XE the moment you slide into the form-hugging seats – you sit low in a Jaguar. Next to you the raised centre console adds to the cockpit feel.

Pulsing with a heartbeat, the car creates an emotional connection between driver and machine. Its 72 per minute double beat is the same as a jaguar cat at rest. Press the Start button and XE awakes, the needles sweep, the engine growls. On cars with automatic transmission, the JaguarDrive Selector rises to greet your hand.

The outer air vents nestle in the door casings, extending the facia and increasing the feeling of width and space. Throughout XE the natural forms of the interior architecture lend themselves to the extensive choice of contemporary or traditional materials and finishes. XE is an inspired place for driver and passengers to be.
Ingenium technology underpins the diesel engine in the XE range. This low friction, all-aluminium engine has stiff cylinder blocks and twin balancer shafts to ensure inherently low levels of vibration for smooth day-to-day performance. All engines are equipped with Stop/Start technology and smart regenerative charging – harvesting kinetic energy from braking to charge the battery – for maximum economy, especially during urban driving. For information on performance figures for XE’s engines, please refer to page 68.

The Ingenium 2.0 l 4-cylinder 132 kW Turbocharged Diesel offers performance and economy. For an engine of this size it offers high levels of torque, but not at the expense of efficiency – a balance achieved thanks to its variable geometry turbocharger. Adapting to the changing flow of exhaust gases, it maximises low speed torque for broad power and responsiveness that is uniform, progressive and avoids lag.
XE offers a choice of petrol engines, including two from our Ingenium range. With their lightweight, all-aluminium design, and widespread use of low-friction roller bearings, Ingenium Petrol engines are built for smooth, highly efficient performance. All engines are equipped with Stop/Start technology and smart regenerative charging – harvesting kinetic energy from braking to charge the battery – for maximum economy, especially during urban driving.

INGENIUM PETROL ENGINES FROM

0-100 km/h in 7.6 s

The **Ingenium 2.0 | 4-cylinder 147 kW Turbocharged Petrol** engine offers the drivability of larger engines, but with much lower fuel consumption. Direct fuel injection from centrally mounted solenoid injectors ensures precise delivery of fuel for highly efficient and clean combustion. Intelligent Continuously Variable Valve Lift control manages early or late opening of inlet valves, meaning the engine can adapt its performance to all driving situations. This works with dual independent variable cam timing to optimise power at all speeds.

The **Ingenium 2.0 | 4-cylinder 184 kW Turbocharged Petrol** engine delivers usable power and torque. For excellent acceleration and effortless overtaking, maximum torque is available at 1 500 r/min. This engine’s twin scroll turbocharger is fed by an integrated exhaust manifold that synchronises exhaust pulses from two separate pairs of cylinders – significantly reducing turbo lag and improving engine response.
XE’s automatic transmission is highly responsive, smooth and efficient. It delivers rapid shifting for effortless acceleration and overtaking. The intelligent, adaptive system subtly changes the way the throttle delivers power, as well as gearshift patterns, to suit each particular driving circumstance. The JaguarDrive Control offers even quicker shifts and sportier kick-down in Dynamic Mode, and earlier up-shifts in Eco Mode. With the automatic transmission the driver can opt to manually control gearshifts, via steering wheel paddles, at the touch of a finger.
XE’s form has been rigorously optimised for aerodynamic efficiency and stability. With a drag co-efficient from Cd 0.28, XE cuts through the air - reducing fuel consumption and lowering emissions. Every element exploits the exterior’s maximum aerodynamic potential while preserving XE’s stunning proportions. Vertical apertures in the front bumper’s outer edges channel air through vents in the wheel arches and out over the front wheels. Even the race car-inspired underbody protection and diffuser is designed to make XE as efficient, economical and refined as possible.
Jaguar Land Rover has been at the forefront of aluminium car construction for more than a decade and continues to push the boundaries of this technology. As part of our pioneering recycled aluminium project, we’ve reclaimed over 50 000 tonnes of aluminium scrap — the weight of 200 000 XE body shells — back into the production process during 2015/16. This has prevented more than the equivalent of 500 000 tonnes of CO₂ from entering the atmosphere.

XE is based on our Lightweight Aluminium Architecture, which uses expertise derived from the aerospace industry to deliver premium vehicle characteristics in performance and refinement. This immensely strong bodyshell uses a high strength 6 000 series aluminium alloy. Saving weight without compromising durability, it provides very high torsional stiffness, supporting precise handling. It helps achieve optimum weight distribution approaching 50:50.
ALUMINIUM FRONT KNuckle
Designed to optimum stiffness and strength, the lightweight aluminium front knuckle helps improve XE’s agility, responsiveness and refinement for sports car-like control.

CHASSIS AND SUSPENSION
XE responds with agility and performs with dynamism while always maintaining ride comfort - it’s a unique balance that makes it a Jaguar. The ideal foundation for these driving dynamics is XE’s light, yet exceptionally strong and stiff, Lightweight Aluminium Architecture with its near 50:50 weight distribution.

The sophisticated front and rear suspension systems complete a chassis that achieves a superb combination of sportiness and refinement. Advanced damper technologies - both passive and adaptive - improve ride quality still further and extend XE’s breadth of dynamic capability. The suspension’s control, agility and feedback give XE the spirit of a sports car.

BRAKE SCOOP
A glass-filled polypropylene brake scoop channels air onto the brakes for enhanced brake performance during enthusiastic driving.
INTEGRAL LINK REAR SUSPENSION

Integral Link rear suspension allows XE to realise a perfect combination of a refined, luxurious ride and sharp, responsive handling. The system, the benchmark for this class of car, separates and independently manages the lateral, longitudinal and vertical forces acting on the suspension for enhanced control and comfort. Many components are forged or hollow-cast in aluminium - the optimum production techniques for strong, lightweight suspension.

ALUMINIUM DOUBLE FRONT WISHBONE SUSPENSION

Considered by Jaguar as the best configuration for a front suspension system, the aluminium double wishbone design is modelled closely on F-TYPE’s for precise handling and steering response.
ELECTRIC POWER ASSISTED STEERING

Electric Power Assisted Steering (EPAS) offers outstanding feedback, control and it is active on demand - saving power for where you really need it, as well as saving fuel. EPAS’ sophisticated computer management varies steering assistance as appropriate – increasing assistance for low speed manoeuvring and improving feel at higher speeds.

Dynamic Mode revises the car’s software to further enhance XE’s sporting character. It sharpens the throttle response, increases steering weighting and performs gearshifts more quickly and at higher engine speeds. It also brings visual drama to the driver as the instrument cluster takes on a red glow. Dynamic Mode enhances your connection with XE’s inherent Jaguar performance.
Unique in this class of car, Jaguar’s All Surface Progress Control (ASPC) technology is a low speed cruise control that helps XE to cope with low traction situations. ASPC allows the driver to concentrate on steering the vehicle. Once activated, you use the cruise control buttons to set a ‘target’ speed of between 3.6 km/h and 30 km/h. The system then works to achieve and maintain that speed while exerting optimum traction control.

ASPC is standard on all engines fitted with automatic transmission, and gives XE drivers added confidence over slippery, loose or icy surfaces, undulating terrain and even while descending a difficult incline. It helps make XE easy to drive in challenging conditions. ASPC also has a pull-away function allowing XE to progress from rest on low grip surfaces and ascending gradients, as well as a hill descent function that controls vehicle speed on steeper inclines.

With any given set of tyres, ASPC can accomplish comparable levels of traction to that achievable by an expert driver. Fitting all-season or winter tyres to XE can improve capability on slippery surfaces.
TORQUE VECTORING APPLIES BRAKE PRESSURE TO SLOW THE INSIDE FRONT AND INSIDE REAR WHEELS INDEPENDENTLY.

POWER IS SUSTAINED TO MAINTAIN CONSTANT SPEED OF OUTER WHEELS.

TORQUE VECTORING
TORQUE VECTORING BY BRAKING

XE’s Torque Vectoring by Braking maximises capability through even the tightest of corners. Torque Vectoring technology provides controlled independent braking on the individual inside front and rear wheels to add to the turning forces acting on the car. In most conditions more braking pressure is applied to the rear inside wheel as this supports the most increased cornering capability, while the front inside wheel is braked for greater effectiveness and refinement. The result is reduced understeer for sharper turning and more consistent road holding. Torque Vectoring delivers increased sports car-like agility and added driver confidence.

ADDITIONAL ROTATIONAL FORCE APPLIED AROUND VEHICLE’S AXIS.

VEHICLE SHOWN: XE S IN FIRENZE RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
Jaguar’s Stability Systems keep XE safely balanced whether you’re driving enthusiastically or simply want the assurance of a car that will remain stable in challenging conditions.

**Dynamic Stability Control (DSC)** monitors XE’s dynamic behaviour, intervening to maximise vehicle stability and optimising available grip. DSC reduces engine torque and applies braking to the appropriate wheels to correct the car’s direction of travel by counteracting understeer or oversteer. XE’s DSC system has enhanced understeer control to reduce speed and regain control more effectively.

**Engine Drag Torque Control (EDC)** mitigates the chance of wheel slip caused by strong engine braking in adverse driving conditions. It acts by briefly increasing torque to the wheels as appropriate.
Delivering a wealth of information and entertainment, every XE is equipped with our InControl infotainment system, Touch Pro. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey.

25.4 cm (10) TOUCH PRO
The standard 25.4 cm (10) Touchscreen at the heart of the centre console supports swipe and pinch-to-zoom gestures and delivers our richest ever audio-visual entertainment. To enhance the in-car experience, Touch Pro offers customisable homescreens and fast response times as well as voice control. Multi-tasking is also made easy thanks to the Interactive Side Panel.

InControl features, options and their availability remain market dependent – check with your Jaguar Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.
CONNECTIVITY

InControl is Jaguar’s suite of standard and optional features that connects you to your vehicle and links you seamlessly, and securely, with the outside world. There are a range of packs and options available to choose from. With a selection of apps, even when you’re away from your car, some of the InControl features stay with you, making sure the Jaguar experience is more enjoyable than ever.

STANDARD FEATURES

PINPOINT TOUCH CONTROL
Pinpoint touch control allows you to interact with information swiftly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch-to-zoom and swipe.

PERSONALISED HOMEPAGE
You can set up your homescreens the way you want them. With over 60 shortcuts and widgets, you can customise your system around the features you use most.

INTERACTIVE SIDE PANEL
A choice of side panels means you can multi-task. For example, your main screen area can be used for navigation, while the side panel provides phone controls. Simply swipe up and down to switch between multiple panels.

MULTIMEDIA
Enjoy a range of multimedia features on the Touchscreen. Connect your device and see details of playlists and music displayed by artist, album and genre.

ENHANCED PHONE INTERFACE
Making it easier and safer, you can call a favourite contact with a single touch. Additional functionality includes direct access to voicemail, conference calling and homescreen integration.

VOICE RECOGNITION SYSTEM
So you can complete tasks without taking your eyes off the road, XE offers voice recognition. For example, ‘Tune to 97.9’ or ‘Call home’.

NAVIGATION PRO
Navigation Pro allows you to save your favourite places, use swipe and pinch-to-zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics.

CONNECT PRO PACK
Connect Pro consists of InControl Apps, a 4G Wi-Fi Hotspot and Pro Services. It's designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey whilst remaining connected to the world.

INCONTROL APPS
Jaguar InControl Apps technology allows vehicle-optimised apps on your Android™ or Apple™ smartphone to be controlled through the vehicle’s Touchscreen, including contacts, calendar and music player via a USB cable. You can also download third-party apps offering a range of services.

4G Wi-Fi
The 4G Wi-Fi Hotspot provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle’s wireless network to surf, work, update social media and stay entertained throughout the journey.

InControl features, options and their availability remain market dependent - check with your Jaguar Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times. Please ensure iPhone compatibility is reviewed with your local Jaguar Retailer.
PRO SERVICES
Pro Services enables connected navigation services to access many additional capabilities, including the following features:

- **Real Time Traffic Information** – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.

- **Planning Routes and Door-to-Door Routing** – Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle’s navigation screen.

- **Satellite View** – When you want to get the context of your surroundings from overhead, simply switch to satellite view.

- **Share ETA** – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you’re running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.

- **Commute Mode** – Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.
A vehicle’s cabin is the ideal place within which to experience your personal choice of music and Jaguar XE has the option of two different audio systems. In addition, it is the only car in its class to offer Meridian sound systems.

SOUND SYSTEM
Excellent acoustic range through six speakers.

MERIDIAN™ SOUND SYSTEM
Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 10 speakers and a dual channel subwoofer.

1Standard on XE Pure, not available on other models.  
2Standard on XE Prestige and XE Portfolio, not available on XE Pure.  
Image is representative of Meridian Surround Sound System.
**MERIDIAN™**

Formed in 1977 in Cambridgeshire, England, Jaguar’s audio partner Meridian has pioneered many firsts including active speakers and the world’s first digital surround sound processor. Meridian’s audio technology input has helped ensure that Jaguar XE is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilised to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

**DIGITAL SIGNAL PROCESSING**

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

**MERIDIAN CABIN CORRECTION**

The advanced algorithm of Meridian’s Cabin Correction tailors the sound experience to the precise acoustics of XE’s interior.

**MERIDIAN DIGITAL DITHER SHAPING**

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

SAFETY AND EFFICIENCY

REAR CAMERA
The Rear Camera provides improved visibility when reversing. This valuable parking aid also helps when hitching a trailer. Static lines representing the vehicle’s outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible.

PEDESTRIAN CONTACT SENSING
Help protect the people outside your car as well as those inside. If the car makes contact with a pedestrian, our industry leading Pedestrian Contact Sensing System is designed to automatically raise the bonnet to help cushion a potential impact.

EFFICIENT TECHNOLOGIES

SUSTAINABLE CONSTRUCTION
Jaguar Land Rover are committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. XE’s development process has included a full lifecycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle’s life.

Recycled materials have been used in XE wherever possible. Each car contains up to 10 kg of recycled plastics, which is the equivalent of 769 small plastic water bottles. The use of recycled material in XE means that approximately 6 290 tonnes of plastic are diverted away from landfill over its entire lifecycle. Parts containing recycled plastics include the floor console base, wheel arch liners, and junction box covers.

ENGINE MANUFACTURING CENTRE
Jaguar Land Rover’s Engine Manufacturing Centre, where all of XE’s engines are developed, has been built to the highest environmental standard (BREEAM Excellent) and features the largest rooftop solar panel installation in the UK – comprising no fewer than 22 600 individual panels, which are capable of providing up to 6.2 MW (enough energy to power 1 600 homes). The panels generate more than 30 percent of the site’s energy, reducing the plant’s CO₂ footprint by over 2 400 tonnes per year.

ADVANCED AERODYNAMICS
XE’s streamlined shape navigates air around the rear wheels to reduce turbulence. The smooth underfloor has been honed through exhaustive testing to perfect airflow efficiency.

Helping XE cut through the air and improve fuel efficiency, lower bumper intakes optimise airflow past the front wheels, by feeding air to the inner wheel arch from ducts in the front spoiler. In the upper and lower front grille, two intelligent Active Vanes open when necessary to let in cool air, but whenever possible they shut.

To reduce drag, which in turn reduces CO₂ emissions, an aero blade below the rear bumper helps redirect air away from the rear of the car. It also helps clean your rear windscreen and lights.

ECO MODE
Eco Mode encourages fuel-efficient driving by reducing throttle sensitivity, selecting more economical engine mapping and, on manual vehicles, advising of gear shifts. It also reduces fuel consumption by minimising the energy demands placed on the engine by climate control and audio systems.

A display on the Touchscreen provides vehicle data and driving tips.

Please refer to page 51 for fitment requirements.

CHOOSE YOUR JAGUAR GEAR - ACCESSORIES

The genuine range of accessories from Jaguar.

Roof Mounted Cycle Carrier
C2A1539
An easy to fit, roof mounted, lockable cycle carrier which carries one bike per holder. A maximum of three holders can be fitted.

1Requires roof cross bars T4N4709. 2Not available on Pure.

VEHICLE SHOWN: XE S IN FIERENZE RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
Aluminium Gearshift Paddles
T2R6547MMU
Replacement steering wheel gearshift paddles offered in a premium aluminium material providing a high quality finish to a key contact point in the vehicle. Manufactured from billet machined aluminium, the paddles are hand brushed for a premium finish and anodised to ensure they will not deteriorate with wear.

Sport Pedal Covers
T2H3746 – Automatic Transmission Vehicles (not shown)
Made from stainless steel and rubber, the pedal kit fits securely over existing pedals for a contemporary, sporting appearance.

Rubber Mats
T4N7496 – LHD
T4N16396 – LHD AWD
Hard wearing Jaguar branded rubber mats provide added protection for your vehicle’s carpets.

Central Armrest Chiller/Warmer
T2H7739
Food and drinks chiller and warmer that acts as a rear centre armrest. With a leather-covered top, it is held in place by the centre seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

Personalised Illuminated Sill Treadplates
T4N7511
Elegantly styled stainless steel sill treadplate finishers for driver or passenger doors. Illuminates when either the driver or passenger doors are opened. Highlighted by soft Phosphor Blue lighting. Allows you to specify a monochrome 'motif' in a choice of approved typefaces/scripts.

Premium Luggage Compartment Carpet Mat
T4N7147PVJ
Luxurious soft luggage mat in Ebony Black with the Jaguar logo. Deep premium 2 050 g/m² pile with nubuck edging and Dove contrast stitch.
**6 CHOOSE YOUR JAGUAR GEAR - ACCESSORIES**

Configure your vehicle at jaguar.in

- **Gloss Black Side Power Vent**
  - T4N16033 – Left Side
  - T4N16029 – Right Side
  Gloss Black side power vents provide a dynamic exterior styling enhancement.

- **Carbon Fibre Side Power Vent**
  - T2H6208 – Left Side
  - T2H6209 – Right Side
  High grade Carbon Fibre side power vents provide a performance-inspired styling upgrade.

- **Chrome Grille**
  - T4N10516
  Provides a Chrome finish to the grille surround and bumper beam accentuating the XE’s luxury appearance.

- **Gloss Black Mirror Cover**
  - C2D6066PEC – Left Side
  - C2D6067PEC – Right Side
  Gloss Black mirror covers accentuate the dynamic design of the exterior mirrors.

- **Carbon Fibre Mirror Cover**
  - C2P24176 – Left Side
  - C2P24177 – Right Side
  High grade Carbon Fibre mirror covers provide a performance-inspired styling upgrade.

- **Chrome Mirror Cover**
  - C2D5489 – Left Side
  - C2D5488 – Right Side
  Chrome mirror covers accentuate the stylish design of the exterior mirrors.

*Requires roof cross bars T4N4709.*
Give XE an even more stylish look with this bright finish front splitter blade. Body-coloured rear spoiler is also available. (T4N5462LML)

Jaguar branded rear splash guards complement the lines of your vehicle and provide protection from dirt and stone chippings. (T4N7514)

Premium tow ball mounted cycle carriers provide a convenient bike carrying solution with quick release loading attachments and secure locking mechanism. Clever design allows carrier to be tilted away from vehicle when fitted allowing access into the rear tailgate.

(T4N7599)

(Watersports Carrier* C2Z21730) A versatile system for transporting a variety of water sports equipment including surfboard, kayak or sailboard. Tilts to facilitate loading/unloading.

(T4N4709)

VEHICLE SHOWN: XE R-SPORT IN YULONG WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
SPECIAL VEHICLE OPERATIONS

Special Vehicle Operations (SVO) designs and engineers products that amplify Jaguar and Land Rover core brand values; focusing on luxury, performance and capability.

Our team of specialists is completely focused on enhancing and personalising our relationship with our most discerning and enthusiastic customers – delivering experiences that our customers will love for life.

SVO is responsible for the creation of a suite of halo products that showcase the pinnacle of Jaguar design and engineering capabilities, enabling our customers to indulge their passion for spectacular new vehicles.

THE NEW SVO TECHNICAL CENTRE
In the heart of the British Midlands is SVO’s brand new Technical Centre. This state-of-the-art facility represents a £20 m investment by Jaguar Land Rover, and features four zones designed to support the creation of truly breath-taking vehicles. In addition to the Commissioning and Presentation suites, our manufacturing centre is responsible for the assembly and hand-finishing of SVO halo and Collector’s Edition vehicles, and a world-class paint facility ensures an exquisite finish for every car we create.

BESPOKE BY SVO
Bespoke by SVO was born out of an innate understanding of what our most discerning clients value more than anything else – to own something completely unique to them. Something only they can have, reflecting who they are and what they hold most dear. With that in mind, SVO developed innovative Commissioning and Presentation suites enabling creation of the most refined and luxurious vehicles in the world. This special new facility is housed within the new SVO Technical Centre in Warwickshire, England.
Choose XE and you’re joining the exciting World of Jaguar.

**TRACK DAYS**
There’s no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit.

Find out more by visiting jaguar.in/experience

**BEHIND THE SCENES**
Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life - from the moulding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you’ll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar’s most breathtaking cars.

Find out more at jaguar.in/experience-jaguar/factory-tours

**ICE DRIVE EXPERIENCES**
Take your driving to the next level with the Jaguar Land Rover Ice Drive Experience. Since 2017, we have been offering an adventure in Arjeplog, Sweden, that will test and develop your performance driving skills in extreme conditions. It’s a rare chance for owners and enthusiasts to tackle some of the harshest and most challenging tracks on earth, under the skilled guidance of our experts. Our driving instructors are of the highest calibre and will be with you every step of the way - ready to impart years of driving wisdom. You will dance on ice, glide around some of the most awe-inspiring corners imaginable and realise the true exhilarating potential of Jaguar and Land Rover.

If you’d like to be part of the next adventure, find out more by visiting jaguar.com/experience-jaguar/iconic-experiences
FORMULA E
Jaguar's reputation for performance, technology and design was forged by the world's most challenging circuits and championships. From Le Mans to Formula 1, and now Formula E, the grid is our test-bed. Formula E provides the perfect proving ground for electric vehicle technology in a high performance environment. The racing series accelerates the development of Jaguar's electric powertrains. With every race, Formula E helps Jaguar engineers create better electric vehicles.

Find out more by visiting jaguar.in/jaguar-racing

JAGUAR COLLECTION
The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our cars. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar's heritage, we also have a collection that honours past achievements and features race inspired gift items and apparel.

To find out more, visit the online shop at jaguar.in/branded-goods/index

THE JAGUAR MAGAZINE
This is our own vibrant, cosmopolitan and contemporary magazine. Produced by a team of enthusiastic designers and feature writers, it goes behind the scenes at Jaguar as well as providing insight into the world of luxury, design, style and travel. You can enjoy Jaguar Magazine twice a year completely free of charge for the first three years. Ask your local Jaguar Retailer to ensure that you receive your copy.
AT YOUR SERVICE

As well as providing a range of exclusive services and lifestyle products, the World of Jaguar makes owning and driving carefree and easy.

GENUINE PARTS
Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your XE to contribute to optimum performance and to help maximise its lifespan.

FLEET & BUSINESS
Jaguars are dynamic and distinctive cars that help companies express the unique character and personality of their business. We are committed to providing customer-focused aftersales services, ensuring that every Jaguar performs to the highest standard and in the most cost-efficient way for businesses. Visit jaguar.in/fleet-and-business for more information.

JAGUAR ASSISTANCE
Jaguar Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

JAGUAR FINANCIAL SERVICES
New or used, for personal or business use, we have a finance option that puts you in complete control. Please speak to your local Jaguar Retailer to find out more.

INSURANCE
XE’s key components are easily accessible for time-efficient service and repair costs. With a focus on lower repair costs, XE delivers competitive insurance group ratings. To find out more about the compelling business case for XE, please contact your local Jaguar Retailer.

IMPORTANT NOTICE
Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications or availability, nor does it constitute an offer for the sale of any particular vehicle, part or accessory. Distributors and retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

COLOURS
The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Jaguar Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

ENVIRONMENTAL INNOVATION AT JAGUAR
Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development.

Search ‘Jaguar Environmental Innovation’ for more details.
